

# Light your way to energy savings.

## Save on LED lighting solutions for your business.

Commercial and industrial businesses have high energy demand but can quickly start saving with high-efficiency lighting improvements. Rhode Island Energy partners with participating distributors to offer your business instant incentives on qualifying LED products at the time of purchase.

## How to participate?

### 1. Find a participating distributor

Use our simple look-up tool at [rienergy.com/RI-Business/Energy-Saving-Programs/Lighting](https://rienergy.com/RI-Business/Energy-Saving-Programs/Lighting)

### 2. Choose qualified lighting products

Review the list on the back to determine what's right for you.

### 3. Receive instant rebate

To receive the incentive at the time of purchase, the commercial installation address and contractor information must be given to the distributor. Once you receive your energy-efficient lighting, make sure to install it in your facility within 30 days and start realizing your energy savings.

For more details and to get started, visit [rienergy.com/RI-Business/Energy-Saving-Programs/Lighting](https://rienergy.com/RI-Business/Energy-Saving-Programs/Lighting)

Product may not be left uninstalled and must be installed at a non-residential commercial facility within 30 days of purchase. Any remaining pieces not installed must be returned. On-site verifications may be required.

### Benefits of LED lighting

- Crisp, clean light reduces eyestrain for a more comfortable work environment.
- Instant-on lighting does not flicker or hum.
- Bulbs emit a high-quality, natural light color for beautiful product displays.
- Lighting controls lead to less energy waste, regulate lighting and reduce energy usage.

### More savings for your business

- **LEDs use up to 90% less energy** than conventional products.
- **Save on maintenance costs**, as LEDs last up to 25 times longer.
- **LEDs emit almost no heat**, reducing cooling costs that can add up.
